WELCOME

We invite your organization to submit nominations to the 2025 (12th annual) Asia-Pacific Stevie® Awards, the top honors in the region for achievement in the workplace. The focus of these awards is on recognizing innovation in every aspect of business.

All organizations and individuals in 29 nations of the Asia-Pacific region are eligible to submit nominations to the awards—large and small, public and private, for-profit and non-profit. The 2024 competition attracted more than 1,000 nominations from organizations of all types across the region.

Eligibility for the 2025 awards extends from 1 July 2022, through the date on which you submit your nominations. Note that all nominations must be submitted in English.

The public-voting component we added to the awards in 2023—the People’s Choice Stevie Awards for Favorite Companies—returns in 2025. All nominations submitted to any of the Company/Organization categories will be included in the public vote automatically. So nominees in the Company/Organization categories will have the opportunity to win two awards: one determined by our professional judges, and one voted on by the general public.

The Stevie Award trophy, the prize that is conferred in the Asia-Pacific Stevie Awards and all other Stevie Award programs, is one of the world’s most coveted prizes. Many of the world’s largest and most famous companies have won Stevie Awards. Most of our winners each year are small and midsize companies that are still growing and building their brands, however.

This booklet explains how to prepare and submit nominations to the Asia-Pacific Stevie Awards. The first important step to entering is to review the categories and to choose the categories in which you’ll participate.

We look forward to welcoming your nominations to the 2025 Asia-Pacific Stevie Awards.

Cordially,

MAGGIE MILLER

President, The Stevie® Awards

AWARDS PROCESS

HOW THE STEVIE® AWARD WINNERS WILL BE DETERMINED

Judging will be conducted in February–March 2025. Judges will be recruited worldwide, will be invited, or will apply to judge on the Asia-Pacific Stevie Awards website and, if accepted, will be assigned to category groups by Stevie Awards staff based on their industry, function, and experience. A judge will not be assigned categories to which their own organization has submitted entries.

Each entry will be reviewed and rated by no fewer than five (5) judges who have been approved as qualified (by Stevie Awards staff) to judge those entries. Rating will be done on a scale of 1–10.

The average scores of judges will determine the Gold, Silver, and Bronze Stevie Award winners in each category.

DETERMINATION OF GRAND STEVIE AWARD WINNERS

Five Grand (“best of show”) Stevie Award winners will be selected. The organization that wins the most Gold, Silver, and Bronze Stevie Awards will be presented with the Grand Stevie Award for Organization of the Year. The top-scoring nomination from each of the four nations or territories that submitted the most entries to the awards will also receive Grand Stevie Award trophies.

ENTRY FEES

Entry fees for all categories in the 2025 Asia-Pacific Stevie® Awards are summarized in a PDF document which you may [download here](#).

A separate fee is required for each category in which an entry is submitted.

No refunds will be made after 17 January 2025. Entries submitted after 17 January 2025 will be assessed a late fee of \$55 (per entry) in addition to the entry fee, but will not be penalized in any way in the judging.

SUBMISSIONS IN ENGLISH

We require that nominations be submitted in English so that we may recruit professionals worldwide to be judges.

If you and your colleagues are not English speakers and are unable to write or read the language, we recommend that you do the following:

1. Write your nomination(s) in your native language.
2. Use **Google Translate** or a similar online translation tool to translate your nomination into English.
3. While the automated translation of your nomination to English may not be perfect, it will be good enough to communicate the gist of your achievements to judges.
4. So that the judges will know that you used an automated translation tool to convert your nomination into English, we recommend that when you submit your nomination into our online entry system you begin your nomination with this first sentence, in English:

"An automated translation tool was used to translate this nomination into English."

The judges will then know to overlook any grammatical or spelling errors made by the translation tool.

THE ELEMENTS OF AN EFFECTIVE STEVIE® AWARDS NOMINATION

1

Effective Nominations Are Focused on the Eligibility Period

The eligibility period for the 2025 awards extends from 1 July 2022 through the date on which you submit your nominations. While it's OK to briefly mention achievements from before that window, your nominations should be focused on achievements during this window.

2

Effective Nominations Relate the Cited Achievement(s) to Their Benefits

The judges want to know about your achievements, but they also want to know how those achievements have benefited others: your organization, your colleagues, your customers, your community, etc. Make sure your nominations include explanations of these outcomes.

3

Effective Nominations Are Supported by Materials to Back up Your Claims

The judges want to see that you can back up the claims you make in your nominations with validating materials. These might include customer testimonials, press clippings, product reviews, etc. You may attached web page links, or upload files such as videos, photos, PDFs, and other documents to your nominations.

ENTRY PREPARATION TIPS

1 Write Your Entries Offline Before Submitting Them

Write your entries offline, so that you have a permanent record of them. Don't write your entries spontaneously online - if something goes wrong with your computer or there's a momentary glitch in our online system, your work may be lost.

2 Add Supporting Materials & Links

Attaching supporting files or web URLs to your entries is optional, not required. But we strongly recommend that you include supporting materials with your entries because you will receive extra points from the judges for including them.

3 Focus on Achievements During the Eligibility Period

The eligibility period extends from 1 July 2022 through the date that you submit your entries. While your entries may make reference to achievements from before this period, they should focus on achievements during the eligibility period.

4 How to Submit Entries for Multiple Clients

If you're with an agency and you want to submit entries on behalf of multiple clients, you don't have to create separate accounts. You can create a separate "nominee" for each clients, and submit each clients' entries under their own nominee name.

5 Test Your Links

If you include links to online videos, images, or other supporting materials with your entries, test your links before you submit your entries. Preview an entry before your submit it, and click your links in it to ensure that they are valid.

6 Video Entries and Other Media Materials

Your attachments should be directly downloadable & immediately accessible. If you want to include a video, linking to a version on YouTube, Vimeo, or a similar service is preferred. If you absolutely cannot do that, upload your video file to our server.

7 Giving Titles to Your Entries

It is not necessary to include the category name in the title. When titling the nomination of an individual, the ideal title is just the person's name and job title, like "Jane Doe, President." Unless you have other text that qualifies the nomination, keep it simple.

THE STEVIE® AWARD

The Stevie Award trophy is one of the world's most coveted prizes. Since 2002 the Gold Stevie Award has been conferred for achievement in business to organizations and individuals in more than 60 nations.

The name Stevie is taken from the name Stephen, which is derived from the Greek for "crowned."

The crystal pyramid held aloft by Stevie represents the hierarchy of human needs, a system often represented as a pyramid that was developed in the 1960s by psychologist Abraham Maslow, who observed that after their basic needs are met, human beings seek the esteem of their peers.
